ABOUT ME

Game programming student at Breda University of Applied Sciences with a passion for using creativity in games. I enjoy building interactive gameplay systems and tools for creating procedural worlds. Looking for an internship starting September 2027.

PROJECTS

Slashback | C++ · Unreal Engine PCG · Team of 13
buas.itch.io/slashback

- Built a procedural building feature using Unreal Engine's PCG graph
- Collaborated with artists to create suitable assets and with designers to make the tool flexible

Procedural Planet Generator | C++ · PS5 Graphics API · Solo
lucasjp24.github.io/blog/procedural-planet-generation.html

- Researched 3D procedural planet generation
- Built a tool that generates earth-like planets
- Worked with the PS5 graphics API

Oh! Meow God | C++ · Custom Engine · Interactive Gameplay Programmer · Team of 17
buas.itch.io/oh-meow-god

- Created a spline tool using a B-spline library
- Designed interactive gameplay features: breakable chains and falling boxes
- Worked on AI that moves along the spline

EDUCATION

Breda University of Applied Sciences 2024 – 2028
Game Technology

SKILLS

Programming: C++, Python, TypeScript
Engines & Tools: Unreal Engine, Visual Studio, VS Code, GitHub, Perforce
Focus Areas: Interactive Gameplay Programming, Procedural Content Generation
